

Mark your calendars! Consolidated Gas Annual Meeting

Consolidated Gas Cooperative, Inc.
will hold its Annual Meeting on

October 27, 2009

4:00 p.m.

5255 State Route 95
Mt. Gilead, Ohio 43338

Please RSVP with the
form below by October 19.
(business meeting with light refreshments)

Consolidated Gas Web site has new look

We have updated the look and feel of our web presence at www.co-opgas.com. We also took advantage during this time to add many of the programs and services Consolidated Gas has to offer that can save you time and money, such as our metered and electronic billing programs.

You'll also find a safety link, current and back issues of *Propane News*, and information on our service territories and installation guidelines.

We are proud and excited to launch the end result of the project. Any questions or feedback you have about the site can be emailed or give us a call at 866-946-6600.

Please return the following form to RSVP for the Consolidated Gas Annual Meeting.

PROPANE
EXCEPTIONAL ENERGY™

Propane: The energy of choice for farming

In the business of farming, every decision matters, including managing input costs, and controlling emissions. Farmers are looking for ways to get more out of their operation. Propane provides a clean, efficient, and reliable energy choice that protects the environment with fewer greenhouse gas emissions. The following are reasons why over 900,000 farms have propane hard at work for them!

- Propane keeps animals warm and dry, allowing the nation's poultry and swine producers to operate year-round.
- Propane provides the hot water required to clean and sanitize agriculture buildings and processing facilities.

- Propane-fueled heat, flame and steam are a more natural alternative to ozone depleting methyl bromide, a chemical fumigant that is being phased out by the EPA.

- Propane incineration offers one of the most bio-secure and environmentally responsible means to dispose of animal and other waste products.

Learn more about how propane is being used in forward-looking agricultural operations at www.agpropane.com.

A Cooperative riddle...

What is owned by many people, but never dominated by one person, and is found in your community? A cooperative! A cooperative is owned by its members, controlled by a democratically elected board, and is located in your community. Consolidated Gas is a cooperative that provides propane gas to local members; it exists to benefit the members.
